

# Buki

France

CATALOGUE  
2026

**Our company and team**

**Our products**

**In the world**

Established in 1992, Buki France is today a key player on the toy market. Our mission? Offering educational toys so that children can learn and have fun at the same time! In our French offices, we work on the conception and development of the different products that are released every year.

BUKI is specialized in scientific toys and arts & crafts kits for children of all ages. Our sets will encourage children to develop their curiosity and their creativity! Our kits are aimed at every child: little ones with products that offer an initiation to science, colours, shapes, time and logic; and older ones with scientific kits and creative toys.

Buki toys are not only distributed in France, but also in many countries inside and outside Europe, such as Belgium, Spain, Italia, Romania, Bulgaria or Switzerland, Canada or most of the Latin American countries. Our goal? Proposing our toys all over the world by establishing a relationship of trust with our commercial partners.

## MINI LAB Solar energy

3016

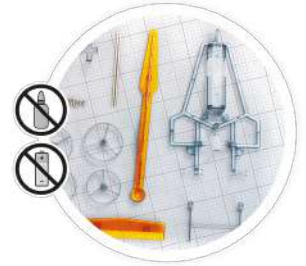

Assemble the parts of the car with the screwdriver, and then make it move with solar energy.

INCLUDES  
STEP-BY-STEP  
ASSEMBLY  
INSTRUCTIONS

BUILD  
YOUR OWN  
SOLAR CAR

## MINI LAB Crystal

3006BLU

A kit for growing a large, colourful crystal easily.

Includes the crystal powder, the growing beaker and illustrated colour instructions.

GROW YOUR  
OWN CRYSTAL

## MINI LAB Sticky Slime

3007

A kit for making slimy mixtures safely. 6 activities, including slime, bouncy ball, fart paste...

Includes 6 slime powder sachets and instructions illustrated in colour for the activities.

6  
ACTIVITIES

MAKE SLIMY MIXTURES

## MINI LAB Electronic

3008

Assemble the no-solder components and discover 6 activities to make your own alarm. Includes real components (light sensor, buzzer, transistors etc.) and instructions illustrated in colour for the activities.

8+

2  
Not included  
AA

6

3 700802 101994

## MINI LAB Bouncy balls

3009

A kit for making colourful bouncy balls. Some even glow in the dark! Includes 5 sachets of elastic powder and instructions illustrated in colour with activities.

8+

6

3 700802 102007

MAKE YOUR OWN COLOURED BALLS!

## MINI LAB Bath balls

3010

A kit for making colourful bath balls. In the water, the balls make bubbles and colour your bath.

8+

6

3 700802 102038

## MINI LAB Fluo & Glow

3011

With this set, you can conduct experiments that glow in the dark. Make your own lava lamp, invisible ink, phosphorescent slime, etc. Includes many accessories, such as 3 colourings and a UV lamp.

8+

2  
included

6

3 700802 102724

CREATE MIXTURES  
THAT GLOW  
IN THE DARK

6  
ACTIVITIES

## MINI LAB The chemistry of colour

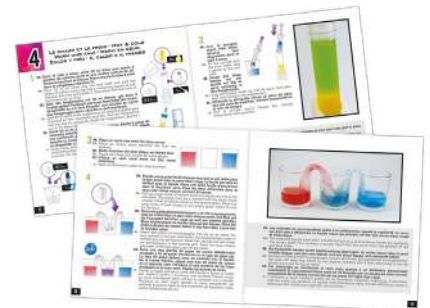

3013

A kit for carrying out amazing colour activities: lava lamp, magic soup, density cocktail... Contains: test tube, syringe, 3 colourings, coloured tablets and powdered red cabbage.

8+

6

3 700802 103097

6  
ACTIVITIES

DISCOVER THE AMAZING  
SECRETS OF COLOUR

## MINI LAB Space

3014

A kit for discovering space and observing the moon and stars: constellations map, solar system poster, lunar calendar...

Contains: a rocket ready for lift-off and powder to create a bouncy meteorite.

8+

6

3 700802 103103

6  
ACTIVITIES

EXPLORE THE GALAXY

## MINI LAB Magic science

3015

A set for performing magic tricks explained by science. Make objects levitate with static electricity, change liquid water into a solid and discover optical illusions. Contains: magic sand which dries in the wink of an eye.

DISCOVER DISGUSTING EXPERIMENTS

## MINI LAB Yucky science

3017

A kit containing six disgusting experiments: slimy worms, dripping eyes, bouncy poop...

Contains: beakers, pipette, measuring spoon, sodium alginate, colouring...

## MINI LAB Magnets

3018

10 experiments to discover the fascinating properties of magnets! Make objects float, move a car without touching it, and build a compass. Kit contains: 8 magnets and all necessary accessories.

## MINI LAB RC Robot Dog

3019

Put the parts together and connect the robot dog's components: electric motor, gears and legs. Use the infrared remote control to make it move forwards and backwards. Assembled robot dimensions: 13.5 x 7 x 8 cm.

## I CAN BE Display 6pcs

2001

Kits to discover 6 different science careers:

- Archaeologist: unearth 4 ancient treasures.
- Chemist: experiment with different materials.
- Meteorologist: find out what the weather will be like tomorrow.
- Forensic scientist: take fingerprints.
- Robotics engineer: build your robot
- Astronaut: explore the solar system

All the materials needed for the activities are included: measuring beaker, tools, reagents, etc. Illustrated information sheets help you to find out more about the different professions.

8+

Not included

24/6

3 700802 106869

## I CAN BE Archaeologist

2001A

A boxed set to discover the profession of archaeologist. Use the included tool to unearth 4 ancient treasures: an Egyptian mask, a Mayan relic, a Chinese statue and a Roman coin.

Find the excavation sites on the illustrated maps and learn all about the techniques used by archaeologists in the instruction sheet.

8+

24/6

3 700802 106876

## I CAN BE Chemist

2001C

A boxed set to discover the profession of chemist. With the powders included, carry out three safe materials chemistry experiments: polymerization (bouncy ball), non-Newtonian fluid (slime) and cross-linking (slime worms).

Learn all the techniques used by chemists in the illustrated instruction sheet.

8+

24/6

3 700802 106883

## I CAN BE Meteorologist

2001M

A boxed set to discover the profession of meteorologist. Predict tomorrow's weather with the weather station, rain gauge and thermometer. Discover tornadoes and safely make fake snow.

Learn all about the techniques used by meteorologists in the illustrated instruction sheet.

PRODUCT ZOOM

## I CAN BE Forensic scientist

2001P

A boxed set to discover the profession of forensic scientist. Take fingerprints with the ink pad. Put on your gloves, observe the clues with the magnifying glass and use the brush and powder to detect any fingerprints left at the crime scene.

Learn all about forensic science techniques in the illustrated instructions.

## I CAN BE Robotics engineer

2001R

A boxed set to discover the profession of robotics engineer. Use the screwdriver provided to build your robot. Connect the motor, switch and battery box. Your robot stabilises itself and moves forward on its own.

Learn all the techniques used by robotic engineers in the illustrated instructions.

PRODUCT ZOOM

## I CAN BE Astronaut

2001S

A boxed set to discover the profession of astronaut. Assemble your solar system and explore its 8 planets. Customise your model and get ready for your voyage into space like a real astronaut.

Learn all the secrets of astronomy in the illustrated instructions.

PRODUCT ZOOM

## Chemistry - 75 experiments

8363EU

A chemistry set with 75 safe, chemical-free experiments! Perform fun scientific experiments with common household products like salt, vinegar and flour!

8+

3 700802 100355

## Chemistry -150 experiments

8360

150 risk-free chemistry experiments! Experiment with mixtures using kitchen products such as eggs, vinegar, oil...

Includes a flask, test tubes and protective goggles.

Why does oil float on water? How does bicarbonate of soda react with vinegar? How do they make fizzy liquids?

8+

4 893338 083601

## Chemistry lab 200 experiments

8364

Become a junior chemist with this multi-purpose laboratory: mixer, funnel, dripper, pourer, protective mat, and more.

200 experiments using safe ingredients found in any kitchen: density, mixtures, acidity, acid-alkali reactions, and more.

8+

3 700802 101147

# 200

experiments

## Chemistry Lab 200 experiments

8368

A kit to conduct 200 chemistry experiments: acid-base reactions, microbial culture, gelation, crystals, limewater...

Lab case for storing equipment and taking it anywhere.

Contains lots of accessories to conduct the experiments: beaker, test tubes, syringe, pipettes...

8+

3 700802 107170

The case  
transforms  
into a lab

Product in development.  
Artworks, contents and  
activities not final.

# 200

experiments

## Wizard chemistry 30 experiments

8366

A cauldron to conduct 30 magical experiments and become a real wizard! Activate the light effects and smoke and use the magic wands to surprise your audience.

By pouring different ingredients, you will create amazing chemical reactions!

Each wand has a secret hatch to hide powder or liquid. 3 colourings and 5 chemicals are provided to help you complete the experiments successfully.

30  
magical  
experiments

*Magic smoke*

*Light effects*

*Potion mixer*

## Natural phenomena 20 experiments

2170

20 experiments to discover natural disasters and terrestrial weather phenomena.

Expose the Leo figurine to the worst catastrophes – volcanic eruptions, earthquakes, waterspouts, meteorite impacts...

Produce three types of volcanic eruptions: submarine eruptions, explosive eruptions and effusive eruptions of lava, with lighting and smoke effects.

With the earthquake simulator, you can construct buildings using the bricks supplied and subject them to the vibration of the motorised base, which reproduces different levels of magnitude. Includes: a world map for locating natural phenomena.

**Poster**

## Potions lab

2176

Create 15 colourful, sparkling potions with the materials provided.

Decorate them with pearly pigments, confetti, ribbons and charms. Use the light-up base to turn your potion into a fabulous nightlight.

In the cauldron, try 5 magic experiments using the reagents provided and ingredients from home.

8+

1  
370  
Included

6

3 700802 106357

Light-up base & shelves included

Create 15 Potions

and 5 magical experiments

## Volcanoes and dinosaurs

2224

Discover 15 experiments you can do about volcanoes and dinosaurs: recreate volcanic eruptions at home, study volcanic rocks, make your own lava lamp, and dig up a Tyrannosaurus skeleton and then re-assemble it.

8+

6

3 700802 102489

## Rocket science

2166

Build your rocket and carry out launches in total safety. Prepare your fuel with the ingredients supplied, fit the safety stopper and launch your rocket to heights of up to 15 metres!

You can then use ingredients of the house: baking soda and vinegar.

8+

3 700802 103424

Poster on the history of rockets

Illustrated instructions

3,2,1... GO!!!

## Explosive science

2161

Discover 15 fun explosive experiments: a bomb, a geyser, a rocket... The kit contains foam protective pads and goggles for carrying out the experiments in total safety.

8+

3 700802 102847

## Mega fluo & glow

2162

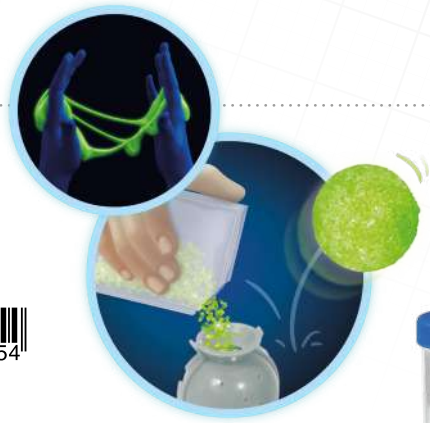

Discover 15 activities to try in the dark.  
Light the UV lamp to admire fluorescent colours.  
Make slime and phosphorescent bouncy balls that glow in the night.

8+

2 included

6

3 700802 102854

15 activities to try in the dark

UV Lamp

## Mega sticky slime

2160

Discover 20 slimy activities involving different types of texture and hundreds of combinations: phosphorescent, gold, fluffy, ultra-slimy...  
Includes: pre-dosed sachets to avoid mistakes in the recipe.

8+

6

3 700802 102212

20 sachets of slime

SLIMY WORMS

GLOWS IN THE DARK

ULTRA-STICKY !

## Mega bouncy balls

2164

Discover 12 activities to create bouncy balls of all colours and shapes. Make a luminous ball and create an outside ball with elastic bands. Test your skill and dexterity.

8+

1 included

6

3 700802 103233

## Bouncy Balls Lab

2157

A laboratory with 3 stations to create 50 bouncy balls of all shapes and colours! Pour the powder into the mould using the funnel and place it in the water. Thanks to the timer, it rises automatically! Make the ball dry in the station with water collector.

8+

6

3 700802 107187

## Amazing crystal

2165

Cultivate 12 amazing and beautiful crystals: discover the instant crystal tree, make a crystallised jewel or grow a mega-crystal. Place your crystals on the luminous base and watch the light pass through them!

The activities use a microwave oven for greater speed and safety.

8+

3 AAA  
Not included

6

3 700802 103318

## Maxi Giant Crystal

2226

Grow a giant crystal up to 10 cm in diameter.

Start by growing small crystals for 48 hours, then use them as a base to grow a giant crystal. It will grow for several weeks in the bucket provided.

Includes: pre-measured crystal powders (76 g and 370 g), growing trays (250 ml beaker and 2-litre bucket) and colour illustrated instructions.

8+

## Sensory slime

2169B

20 slimes to discover: jumping, glowing, neon, cotton, metallic, galaxy...  
Create mixtures easily by adding water to pre-measured beakers. Use the tools to shape, knead and mix your slimes.  
Includes: a silicone mat to protect the table for mess-free play.

6+

3 700802 106562

## Slime Display 12 pcs

D169

A display of 12 collectible slimes in new colours and textures.

Experience the fluffy feel of Cotton slime. Admire the shiny reflections of Metallic slime. Blend shades with Triple Colour slime. Knead and find hidden toys in Two-Tone slimes.

3 700802 106265

# SKELETON

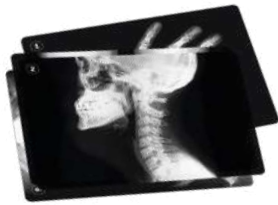

SQUELETTE GÉANT

## DISCOVER THE ANATOMY

### Skeleton 45 cm

2180

Assemble the 45 cm skeleton to learn about anatomy. The bones have a realistic texture and colour. The skeleton is fully articulated and the child can place it in any position. A base is supplied to stand the skeleton on a desk. The child can stick labels on the bones to identify them. 10 X-rays are included!

### Skeleton 85 cm

2181

Assemble the giant 85 cm skeleton to learn about anatomy. The bones have a realistic texture and colour. The skeleton is fully articulated and the child can place it in any position. A base is supplied to stand the skeleton on a desk. The child can stick labels on the bones to identify them. 10 X-rays are included!

ARTICULATED  
SKELETON

# Human body

2163

A model of the human body, with soft organs to dissect and phosphorescent bones.

Discover 12 experiments to understand the secrets of anatomy: cultivate bacteria, make slimy mucus and listen to your heart beating with the stethoscope.

8+

3 700802 103110

Soft organs and phosphorescent bones

12 EXPERIMENTS

A real stethoscope

## Arcade cabinet

2167

Use the screwdriver included to assemble the controller, build the cabinet and connect the components: screen, loudspeaker and power supply. Customise your cabinet with stickers.

Discover 12 games inspired by the great arcade classics: puzzle, snake, breakout, shoot'em up...

Personalise your cabinet and play!

Assemble the gamepad and the cabinet!

## Pinball

2168

With the screwdriver included, assemble the elements to construct your pinball machine. Connect the components with the no-solder connectors: bumpers, LEDs and the score table. Personalise your pinball machine with the included stickers.

The electronic board emits sounds whenever the ball hits the bumpers and keeps track of players' scores.

EASY ASSEMBLY AND NO-SOLDER!

## Electronic basket-ball hoop

2151

A kit to build your own electronic basketball hoop. Using the included screwdriver, children can safely assemble the scoreboard, control panel, speaker, and battery compartment – no soldering required. Customise the hoop with the included stickers.

The electronic scoreboard makes sounds with each basket, counts down the time, and tracks scores. Play solo or compete with a friend and compare scores.

Dimensions of the assembled hoop: 32 x 18 x 32 cm.

Includes three additional skill games: tic-tac-toe, precision shooting, and battle royale.

## Electronic expert

7160

Assemble the components on the board and produce over 50 electronic circuits: alarm, sound effects, digital screen...

No-solder, i.e. no danger components are included: LEDs ; photosensitive, magnetic and touch sensitive switches ; transistors, resistors, loudspeaker, rotating light...

**MAKE ANIMAL SOUNDS**

**MAKE THE LEDS FLASH**

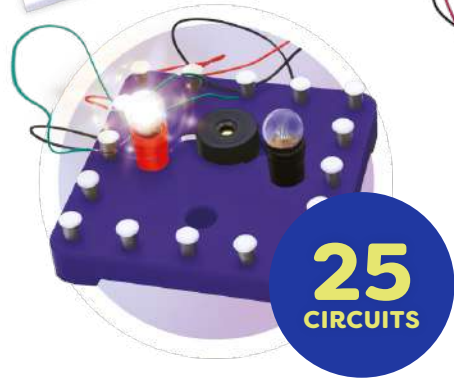

**TOUCH-SENSITIVE SWITCH**

## Electricity lab

2172

Discover the basics of electricity by building 25 circuits in total safety. Connect the components on the circuit board: bulbs, buzzer, motor, resistors...

Discover how electricity flows through your assemblies. Build and use your circuits to create games to test your reflexes, a decision wheel and an alarm for your room.

**25**  
CIRCUITS

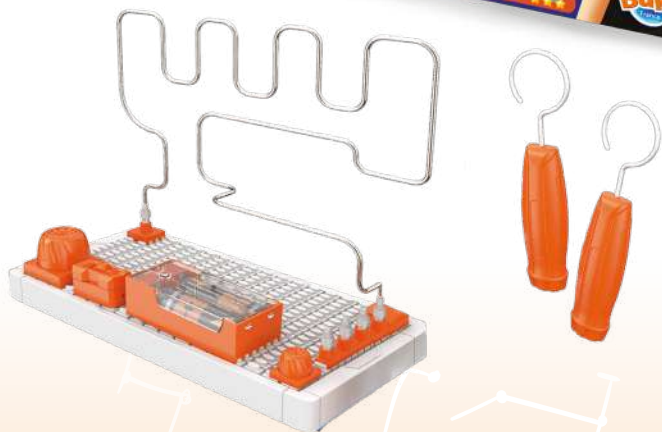

## Electric Maze DIY

2177

Assemble the components on the board to create 3 mazes with different levels of difficulty: easy, medium and hard. Create the maze as quickly as possible without touching the metal! The board lights up and buzzes when the wand touches the metal of the maze.

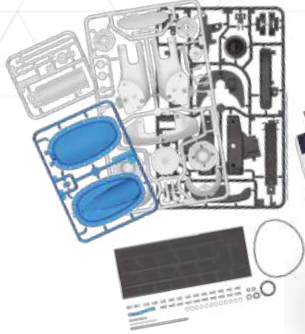

Product in development.  
Artworks, contents and activities not final.

## Air racing car

7511

Assemble the parts and build a racing car powered by compressed air. Pump 14 times, place the car on the ground and watch it shoot off at 4 m/sec! Assembly time: 2 to 3 hours

Please contact us for the availability of this item

## Solar energy 14-in-1

7503

Assemble the parts and build a robot powered by solar energy. 14 models can be built, including a car, a crab, a boxer and a boat. The panel captures the sun's rays or a lamp of at least 50 W and transforms them into electricity.

Please contact us for the availability of this item

## Solar robot 12-in-1

7512

Assemble the parts to build the 12 solar-powered robots step by step. Dual power supply: solar panel or lithium battery (both included) for playing even without sunlight! 208 pcs to assemble.

Product in development. Artworks, contents and activities not final.

 +  **DUAL POWER SUPPLY : SOLAR AND BATTERY INCLUDED**

**12**  
MODELS

## Hydraulic robot arm

7505

Build an articulated robot arm by assembling the parts. Pour water into the hydraulic system and control its movements in all directions with the 6 levers. It can carry objects weighing up to 50 g with its gripper or suction cup. No batteries required.

10+

3 700802 101772

## Microscope - 40 experiments

MR800

A 24 cm microscope ideal for accurate, good quality observations. It includes 2 eyepieces, one of which is a wide-field eyepiece, for a zoom of up to 1200X.

LED lighting, a metal body and weighted base ensure excellent visibility and stability. Many accessories are provided: sample slides, tweezers, scalpel, needle, vials, blank slides, etc.

The colour-illustrated leaflet suggests 40 varied experiments: observe an onion, blood cells, feather, insect wing and many others!

Product in development artworks, contents and activities not final

## Microscope - 50 experiments

MR600

A metal microscope with glass lenses and eyepieces for high-quality observations! 3 zoom levels: X 100 - X 250 - X 1000 HD Includes many accessories: slides, tweezers, vials, mixer, labels, Petri dish, micro-slicer, and more.

Glass eyepieces

## Video magnifying microscope

MR300

Explore the world of tiny things with this video magnifying microscope you can take anywhere. It features 500X magnification, LED lighting and automatic focus for quick and easy observation. Ideal for observing nature.

Observe in real time with the 5 cm screen. Both photos and videos can be taken (SD card not included).

## Video microscope

MR350

Explore the world of tiny things with this video microscope. It features adjustable magnification from 200X to 1000X. The LED lighting and focusing system ensure precise, sharp observations. Ideal for observing all kinds of objects: plant cells, feathers, insects, materials, etc.

Observe in real time with the 5 cm screen. Both photos and videos can be taken (SD card not included).

# Expert Video Microscope

MR900

Explore the world of tiny things with this expert video microscope. It features adjustable magnification from 500X to 1500X. Dual LED illumination. Observe in real time with the 6 cm screen. Contains accessories to conduct the experiments: sample blades, forceps, scalpel, empty slides...

**NEW**

Product in development artworks, contents and activities not final

Internal memory  
**50**

# Day and Night Globe

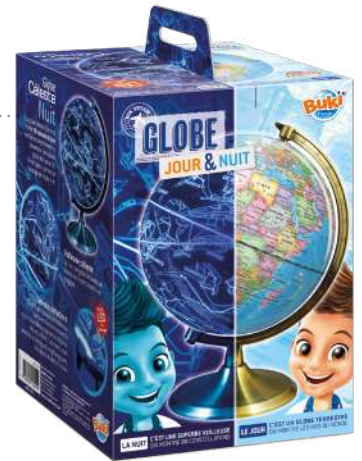

7345

A 21cm globe to observe the earth during the day, and the constellations at night.

**Daytime:** explore the globe with its political borders, seas, mountains, and cities.

**By night:** gaze at 88 constellations and learn their names! The LED provides soft lighting, so that kids can use the globe as a night light.

Assembled globe measures 21cm across on metal stand. Comes with USB cable and mains adaptor.

Instruction sheet with colour illustrations to learn about geography.

If other mains adapter is required, please contact our team.

7345NL

7341ES

This globe is available in several languages: French, Dutch and Spanish.

# Magnetic world map

7346DE

A 70 cm by 38 cm world map for exploring the countries of the world. The map can be hung on the wall or placed on a desk thanks to its easel system. 40 magnetic pieces representing major geographic zones can be positioned on the map. There are also 50 magnetic flags and pins you can use to mark the countries you have visited or would like to visit. With the photos and the illustrated roadbook, you can explore the most beautiful monuments, roads and landscapes around the world.

This map is available in several languages : German, Dutch and Italian.

7346DE

activities not final

## Flying ball

SP006

An illuminated flying ball for playing alone or with friends. Guide your ball so that it flies through the air. Can be used indoors or outdoors. Rechargeable with the USB cable included.

The ball spins and fly!

Diameter:  
∅ 8 cm

Luminous

## Expert Binoculars 10 x 25 mm

SP008

A pair of 10 x 25 mm binoculars for seeing 10 times larger! Focusing ring for clearer images and non-slip coating for a solid grip. Tinted lenses for more natural colours. The binoculars are compact and lightweight. Carrying pouch and cleaning cloth included.

**Compact and light!**

**Carrying pouch**

## Expert Monocular 12 x 20 mm

SP009

A compact monocular for observing nature and monuments. 12x magnification, diameter 40 mm. Take photos easily with the smartphone adaptor and tripod. Easy to transport with the carrying pouch and cleaning cloth included.

**Easy to carry !**

**Phone adapter**

**Tripod**

## Handbow

BN015

A handbow for practising shooting in total safety. The mechanism and the sucker bolts ensure risk-free use. Includes: 6 bolts and a portable target.

## Slingshot

BN017

A slingshot to help you survive in the forest. Lightweight portable design. The child shoots a foam bottle that "explodes" when hit. Includes: 3 safe darts and spare elastic bands. Range: 20 m.

## Blowpipe

BN020

Insert a dart and blow hard into the blowpipe to hit the targets in total safety. The design and the sucker-darts ensure risk-free use.

Includes: 3 darts and cut-out targets.

## Terrarium

BL034

A terrarium for recreating the habitats of small animals: insects, snails, spiders, tadpoles, beetles, firebugs... Collect plants and stones with the tweezers to decorate your habitat. Watch the animals with the removable x6 magnifying glass and the graduated x3 magnifying glass. Illustrated booklet with 6 example habitats to build.

## Snail house

BL035

A spacious habitat for snails from your garden. Create a safe haven by assembling the wooden shelter.

Spray the habitat and your snails with the water spray bottle included to keep them moist. Organise snail races: identify them with sticky labels, assemble the track and watch them go!

## Insect House

BL036

A habitat for small bugs: soldier beetles, beetles, ants, weevils... Place your insect in the magnifying cup to observe it. Connect the cup to the habitat using the tube. Prepare the habitat with plants and the accessories provided: ramp, ladder, floors, etc. Release the insects after a few days without hurting them!

## Ants habitat

BL037

A habitat for observing the life of ants and watching them dig tunnels. Use the magnifying glass to observe them closer. Contains a nutrient gel to keep the ants healthy. The gel should be prepared with the help of an adult.

# Small shoots

M001

With this set you'll discover the life of a seed! Complete all the experiments in order, like a treasure hunt, to find out what a seed needs to become a plant.

Grow lentils, quinoa or dry beans to learn about seed germination and photosynthesis.

Contains: 3 small transparent jars, a germination cabinet with shelves and illustrated colour instructions with a treasure hunt.

Seeds not included.

## Bug viewer

BL010

Tweezers to catch an insect and place it in the bug-viewer.

Thanks to the two zooms (x6 and x4), you can study the insects in detail.

Comprises handles for better stability. Possibility of examining the insects with a friend.

## Bug vacuum

BL052

A vacuum to catch and observe insects without harming them!

3 speeds, 1 container and 2 nose cones.

## Insect explorer kit

BL033

Catch, observe and learn about 5 different insects: flies, butterflies, ants, grasshoppers and ladybirds – through amusing anecdotes and experiments.

6+

4 893338 120337

## Marine monsters

125

Marine watches with a one-year lifespan to be "tamed" in a phosphorescent aquarium!

Simple to use in 3 steps:

1. Add bottled water
2. Hatch your eggs
3. Feed them!

Once the artemias have hatched, you can watch them twirl, swim and even reproduce with the built-in magnifying glass!

3 sachets provided: purifier, dehydrated eggs and food for 1 year.

6+

3 700802 101574

### Breed artemias

## Litter picker

BN013

With the litter picker, you can take part in the big clean-up to preserve natural spaces. With its rotating head, the litter picker can lift objects weighing up to 5 kg. Work gloves included.

## Flying science

2173

Discover 6 flying toys to test outdoors or indoors: 4 rockets, 2 jet planes, 1 glider, 1 helicopter launcher, 1 parachute and 2 mini-rockets. The foot pump launches rockets and planes over 25 metres into the air! Includes illustrated instructions with scientific activities focusing on flight.

6+

## Glider 48 cm

2174

A 48 cm glider, front-weighted for longer, more stable flight. Change the position of the tailplane to loop the loop!

Customise your glider with the stickers supplied.

Includes: illustrated booklet with scientific explanations.

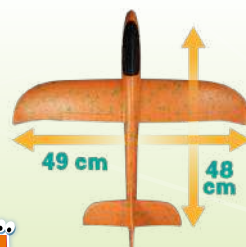

3+

Gliding

Loop-the-loop

## WALKIE-TALKIE

TW01

Explore the world using walkie-talkies with a range of 3 km.  
Many functions: 8 channels for use anywhere, call mode with 10 call tones, built-in torch, backlit screen...

RANGE  
3 km

## WALKIE-TALKIE

TW06

Explore the world with walkie-talkies that have a range of 3 km.

Numerous functions: 8 channels that can be used anywhere, call mode with 10 ring tones, built-in lamp, backlit screen...

## WALKIE-TALKIE JUNIOR

TW03

Walkie-talkies specially designed for toddlers: easy to use with its LED indicators and its size adapted to small hands.

Range up to 2 km, call mode and ergonomic design. Ideal for spy games, camping, parks, the beach.

## WALKIE-TALKIE RECHARGEABLE

TW05

Rechargeable walkie-talkies with a 5 km range. These long-range walkie-talkies include two lithium batteries and a dual mains charger (EU plug). Enhanced microphones and speakers for clearer conversations.

Features include 16 channels usable anywhere, a torch, and a belt clip.

Operates with two included lithium batteries.

If other mains adapter is required, please contact our team.

## PLANE R/C

37294

An easy-to-fly radio-controlled plane for indoor and outdoor use. The integrated gyroscope keeps it stable. The body is made of anti-impact foam. The plane works with a 3.7 V lithium battery and is recharged with the USB cable supplied. The radio control has a range of 40 metres.

## HELICOPTER R/C

37295

A remote-controlled helicopter, easy to fly indoors or outdoors. The helicopter can hover and automatically maintain its altitude.

2.4 GHz remote control. Length 23 cm.

Works with a USB-rechargeable lithium battery.

<https://franca.de/fr/bv/wc6>

Easy to fly

Range 20m

# SUPER KARTS R/C

37296

Race or battle indoors with two customisable karts! Two Game Modes:

Race:

- Create your circuit and race to be the fastest.
- Battle: Bump the kart to eject your opponent.

2.4 GHz remote control. Range: 25 m.

Includes two rechargeable lithium batteries that charge via USB.

Comes with a sticker sheet and a full-colour illustrated manual.

3 700802 106371

# DRONE SPACE SHUTTLE R/C

37298

An easy-to-fly radio-controlled drone for indoor and outdoor use.

2.4 GHz remote control.

The drone stabilizes itself and remain in hover mode. The body is made of MPP foam, shock resistant.

Dimensions: 25 x 26 cm.

3 700802 107255

Product in development artworks, contents and activities not final

## T-REX R/C

37293

A remote-controlled tyrannosaurus 31 cm long. He moves his articulated limbs and breathes smoke. The remote control has a range of 3 m.

## ROBOT MARKO

7601

Discover Marko and his 20 amazing functions: walking, sound and music, dancing...

Program the robot using the infrared remote and discover 10 games to explore the world of coding. You can also control him with your hands!

PROGRAMME DIRECTLY WITH THE REMOTE CONTROL

HAND CONTROLS

# CAMERA

IMPRIMANTE THERMIQUE INTEGRÉE  
BUILT-IN THERMAL PRINTER

## Instant Print Camera

PV07

A camera with a built-in printer to preserve your best memories so they can be cherished forever. Black and white, ink-free printing with thermal technology.

3 paper rolls included. You can print 100 photos with the 2 standard rolls and 20 stickers with the sticky roll. Photo size: 7 x 5.5 cm.

A 8GB micro SD card is included to save your photos and even make videos.

With the dual lens, you can also take selfies, apply filters or even enable the flash!

Features:

- 2-inch colour screen
- Dual lens
- 2x digital zoom
- Fill flash
- Rechargeable (3.7V lithium battery)

Included: neck strap, USB-C charging cable, 2 standard paper rolls, 1 sticky paper roll, user guide.

Paper refills sold separately.

INK-FREE

INCLUDED

PHOTO/VIDEO

## Instant print camera - Refill

PV08

3 standard paper rolls and 3 sticky paper rolls for printing photos with the Buki Built-in Print Camera.

You can print 50 photos (5.5 x 7 cm) with a standard paper roll and 20 photos with a sticky paper roll.

With this set, you can print 150 standard photos and 60 sticky photos!

Paper roll dimensions: 57 x 25 mm.

# CAMCORDER

CAMESCOPE

## Camcorder

PV09

A digital camcorder easy to handle so that the child can immortalize its most beautiful memories in video or photos!

The camcorder is compact, light (300g), and easy to hold thanks to its adjustable handle. The 7.5 cm diameter HD colour screen can be rotated, which allows you to turn the screen and switch to selfie mode.

The camcorder has a x16 zoom. The child can connect the camcorder to a computer to use it as a webcam. A fill-in flash is included to improve video quality in the dark.

A 16 GB SD card is included, to film up to 45 minutes in 1080p. Photo quality is up to 24 megapixels. The menu of the camcorder allows you to select the different resolutions.

Included: a 16GB SD card, pouch, remote control, strap and USB-C charging and transfer cable. A microphone jack and a slide are provided, if the child wants to add a flash or an additional microphone.

COMPACT AND LIGHT  
CAMCORDER!

ROTATING HD  
SCREEN!

## Buki CamPro

PV010

A 2-in-1 camera with a travel mode for holidays and a sport mode for filming your adventures!

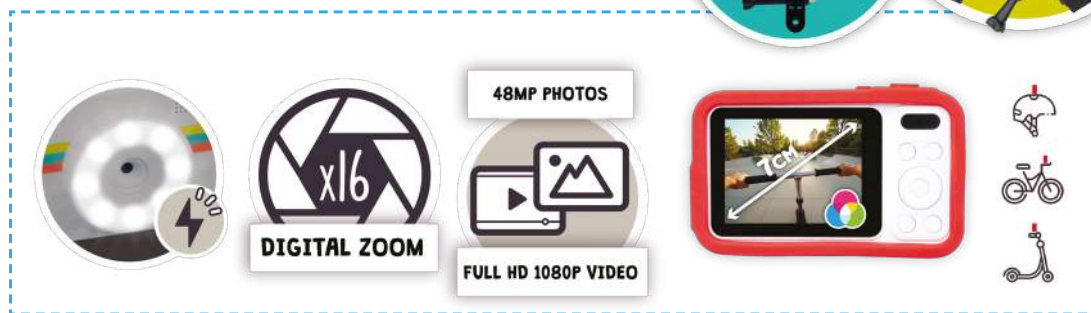

Add the silicone case and use the accessories to fix the camera to a scooter, bike or helmet.

A 16GB Micro SD card is included so you can save your photos and videos.

Features:

- Photo quality: 48mp for ultra-sharp images
- Video quality: 1080p for clear Full HD videos
- Autofocus
- 16X digital zoom
- 7 cm colour screen
- Flash
- Photo/video filters
- Rechargeable with USB cable

Includes: silicone case, fixing accessories, wrist strap, USB-C charging cable, user manual.

## Buki CamJunior

PV011

A very easy-to-use camera, specially designed for young children, so that they can take quality photos and videos.

No games are included, so that children can concentrate on discovering the art of photography.

Weighing in at just 80 g, it's easy for children to carry.

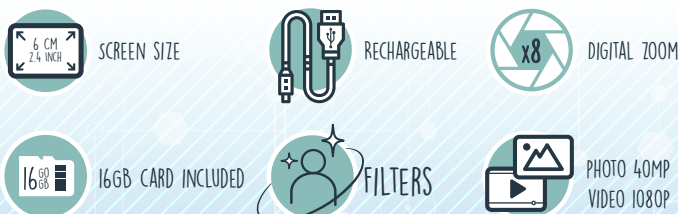

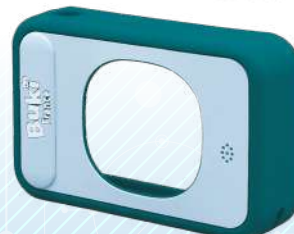

The camera has a silicone case to protect it if dropped.

A 16GB Micro SD card is provided for saving photos and videos.

Features:

- Photo quality: 40mp
- Video quality: 1080p
- 8X digital zoom
- 6 cm colour screen
- Photo/video filters
- Rechargeable using USB-C cable (supplied)

Includes: silicone case, neck strap, 16GB Micro SD card, USB-C charging cable, user manual.

## Dino Magic Eggs - Display 12 pcs

D6G

Submerge the egg in water to hatch and grow a dinosaur.

6 models to collect: Triceratops, Tyrannosaurus, Brachiosaurus, Spinosaurus, Stegosaurus and Ankylosaurus.

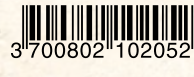

## Dino eggs - Display 12 pcs

D60

Eggs that you can dig to discover small dinosaurs, collect them all!

12 assorted styles. One tool to dig included.

## Dino mega egg

2137

Dig four 3D dinosaur puzzles from the giant 18 cm plaster egg: Tyrannosaurus, Diplodocus, Stegosaurus and Styracosaurus.

Includes: digging tools and a tray for mess-free digging.

**18 cm

on the back

## Bingo junior

5602

Choose a card, designate a game master to do the draw, if the drawn ball appears on your card, place a token on it. The first to complete their grid wins the trophy!

10 double-sided grids, 30 balls and 60 tokens included.

10 numbers, 10 animals and 10 colours

10 double-sided cards

Discover colours, figures and animals

## My writing tablet

5607

A tablet with LCD screen for learning to write the letters of the alphabet in capital letters and lower case cursive letters, as well as numbers from 0 to 9. Plus, learn to draw curvy and straight lines.

The child puts a sheet under the tablet and practices by tracing the lines on each sheet. Erase by simply pressing the button! Write using the stylus like a pen. Add the grip to learn how to hold the pen correctly. This grip can also be used on one of your own pens.

The tablet can also be used to draw and even copy other drawings thanks to the transparent screen.

The tablet weights only 100g and is easy to carry. Dimensions: 22 x 14,5cm.

20 cards for a total of 40 sheets: 26 letters of the alphabet, numbers from 0 to 9, 4 sheets with lines.

# Pottery Poterie

Töpferei / Pottenbakken  
Alfarería / Vasi

## Professional Studio Pottery Expert

5441

A real potter's wheel to introduce children and adults to throwing techniques, with an illustrated guide included.

Rotating at 220 revolutions per minute, this wheel can be used to throw items smoothly and accurately.

The 20 cm diameter metal wheel head can be used to make creations of all sizes.

Two wheel bats are supplied so you can move your creations away to dry, freeing the wheel for new creations.

The wheel is perfectly suited to both left-handed and right-handed users, as it rotates in both directions. Removable splash pan makes cleaning easy.

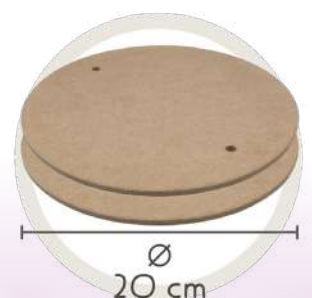

Lots of accessories included: 1 kg of air-drying clay, 5 wooden and metal tools, 1 sponge and 2 bats.

The potter's wheel only works with the mains EU adapter provided, which ensures a 12V supply.

10+

If other mains adapter is required,  
please contact our team.

## Professional Studio Pottery

5426

A real potter's wheel specially designed for children! The instruction sheet tells you how to make a bowl, a pot or even a plate that can then be decorated! 2kg of air-drying clay is provided. Two blocks of clay: one light-coloured, one brown.

The key to success? A cutter to measure out the amount of clay needed and centre it on the wheel to start the creation.

Once the piece has been created, simply move the drawer and place the tray there so that your creation can dry and then be decorated! While drying, the studio can be safely washed as it has a removable electric motor.

The potter's wheel only works with the EU mains adapter provided to ensure the correct motor power is applied.

Many accessories included for creating and decorating: 2 kg of clay, wooden and metal tools, glitter, diamanté, stamps, two brushes, tubes of paint, and more.

If other mains adapter is required, please contact our team.

Wooden tools

2 kg of clay

A real pottery studio specially designed for children!

Leave to dry and then decorate!

## Professional Studio Pottery Refill

5431

Use clay to create things on your potter's wheel. One 500 g light-coloured block and one 500 g brown block, as well as a zip-up storage bag are provided. The clay air dries and does not require baking.

This clay can be used with the Professional Pottery Studio sets. Weight: 1 kg.

## Professional Studio Engraving

5427

A safe workshop for engraving on wood and metal. Create and personalise 5 magnets, 5 key rings, 10 necklaces, and 1 bookmark!

The woodburning tool is equipped with a guard to prevent burns and an ON/OFF key. Adults can use a pair of tweezers to safely attach one of the 6 tips to engrave different designs!

The metal engraver can be used to draw designs on metal plates that can then be turned into jewellery or key rings!

Many accessories included for creating and decorating: felt tips, glitter, diamanté, glue, pair of tweezers, metal and wood shapes, chains, rings, clasps, etc.

The woodburning tool works on AC power [EU plug], and the metal engraver requires 2 LR06 batteries, not included.

## Professional Studio 3-in-1 light pad

5432

A portable light pad that can be used to draw, trace, and create comics and even flipbooks!

**Drawing feature:** Place a template on the pad, then a clean sheet of A5 paper on top. Use the LED light to trace the template – or just to light up your creation!

**Comic/manga feature:** Take a sheet, use the stencils to create blank comic book pages, then draw, add stickers and write your stories.

**Flipbook feature:** Place the adapter on the tablet.

The pad is portable and can be used flat with the 4 feet, tilted using the stand in the centre, or placed on your knees.

Paper size for comics and mangas: A5 - 21 x 14.8 cm.

Paper size for flipbooks: 11.4 x 6.5 cm.

A variety of accessories: 30 x A5 sheets, 100 sheets for flipbooks with a clip and a cover, 2 sets of stencils, 4 sheets of stickers, 1 case with 12 standard felt-tips, 12 brush pens, 12 watercolour pencils, 1 paintbrush, 1 gold gel pen, 1 silver gel pen, 1 fineliner pen, 1 pencil, 1 rubber, 1 ruler, 1 pencil sharpener.

8+

## Professional Studio Nail art pens – Golden

PS101

Apply the nail polish onto your nails using the brush tip and draw with the pen tip!

The box contains three dual-bottle pens: red, gold and purple with a standard version and a glitter version. Each bottle has a brush tip and a pen tip.

The bottles can be mixed on the same pen, so you can take your favourite colours with you wherever you go.

## Professional Studio Nail art pens – Silver

PS102

Apply the nail polish onto your nails using the brush tip and draw with the pen tip!

The box contains three dual-bottle pens: pink, green and silver with a standard version and a glitter version. Each bottle has a brush tip and a pen tip.

The bottles can be mixed on the same pen, so you can take your favourite colours with you wherever you go.

## Professional Studio Hair chalk

PS103

Colour strands of hair by pinching and sliding the chalk along them!

3 different coloured chalks to colour your hair: purple, green and pink.

Just wash your hair to remove the chalk.

## Scoubidou

FK002

12 different scoubidou to make, plus some extra strings so you can design your own!  
Contains 55 strings altogether, including coloured, metallic, transparent and even glitter strings.

And when you've made all 12 items, you'll have 18 strings left over to try out your own ideas!

Contents: 55 assorted scoubidou strings, 15 key rings and 2 pencils.

Projects range from easy to more advanced. Each technique is explained step by step in the instructions, with diagrams for an easy learning.
